SECTION 1: GOVERNANCE POLICIES

All policies in Section 1 were reviewed in May 2019

1.1 The International School of Kenya is governed by two Boards: the Board of Governors and the Board of Directors (hereinafter also referred to as “Board”). The final legal authority and source of guidance on all issues relating to the Board of Governors, and Board of Directors, rests with the Articles of Association and Certificate of Incorporation establishing the school.

Revised May 2019

1.2 THE BOARD OF GOVERNORS

The Board of Governors consists of appointed members from the United States and Canadian missions in Kenya. The role of the Board of Governors is stated fully in the Articles of Association. Broadly, the Board of Governors represents the interests of the schools’ owners by oversight of the budget and any building or other large projects. The Board of Governors acts as a liaison between the school and the Government of Kenya. The Board of Governors convenes and chairs the Annual General Meeting of the school held each April (see Section 1.6.12).

1.21 Governors Authorize the Budget

The Board of Governors, upon recommendation by the Board of Directors, is authorized to establish the budget, tuition and other fees for the school year. The Board of Governors shall control and authorize the expenditure of the funds of the corporation by means of an annual budget. The school shall not in any financial year be permitted to spend any of its funds until such budget has received the formal approval of the Board of Governors. No funds in excess of those approved shall be spent without the further approval of the Board of Governors. The appointment of auditors, who shall conduct an annual general audit, is the prerogative of the Board of Governors.

1.22 Governors Approve Building Contracts

Per the Articles of Association, Article 16, ISK shall not enter into any building contract without the formal approval of the Board of Governors.

Revised May 2019

1.23 Relations with the Government of Kenya

Per the Articles of Association, Article 17, any licenses, permits or other requirements of the Government of Kenya relating in any way to the International School of Kenya shall be obtained by the Board of Governors.

Revised May 2019

The role of the Board of Directors is as follows:

- Developing the School’s Mission, Vision and Philosophy.

The purpose of this retreat includes the orientation of new members to their roles and responsibilities, the setting of goals for the coming year, and training based on recommendations by the Director and previous Board. The Board may involve outside facilitators experienced in working with Boards of Directors of International Schools.

The Board of Directors will perform an annual self-assessment before the end of each school year for the purpose of continuous improvement. In the event of a tie vote in either case, a run-off election shall be held immediately.

SECTION 3: STUDENT POLICIES

All Policies in Section 3 were reviewed for consistency in March 2019

3.1 ADMISSIONS AND PLACEMENT

ISK serves the educational needs of a diverse community of learners in Nairobi from a range of educational backgrounds. Admission is open to students who will benefit from a challenging, international, English-language education.

ISK admits students whose academic, personal, social and emotional needs can be met by the school's programs and services, and who can be successful in a mainstream learning environment. ISK provides support for a managed number of students, representing a range of mild and moderate learning challenges to the highly capable, in addition to a limited number of students with intensive needs, based on the school's enrollment and resources.

Placement assessments and appropriate screening tools are used by the Principals and Director to determine whether a child's needs can be met by the school.

Revised March 2019

3.2 AUTHORITY FOR ADMISSION DECISIONS

Final authority for all decisions on admission and grade placement rests with the Director, in consultation with the Principals.

3.3 PRIORITIES FOR STUDENT ADMISSIONS

If space is limited in a particular grade, applicants who have met all admission requirements shall be admitted according to the following priorities:

- children of employees, grantees or contractors of the United States government and the Canadian government receiving an educational allowance;
- children of teaching and administrative staff at ISK;
- children who have brothers or sisters already in the school and who meet other education requirements;
- recipients of competitive ISK merit scholarships;
- children of the international community not permanently residing in Kenya, with previous international or North American education experience;
- All other students with appropriate academic background.

Revised March 2019

3.4 ADMISSION AND PLACEMENT PARAMETERS

3.41 Diversity of Enrollment

To ensure international diversity within the student body, enrollment of one national group should not exceed 15% of the total school enrollment except for the national groups of Canada and the United States.

3.42 Guardianship Responsibility

Students must be living with their parents or responsible long-term guardians who are acting in loco parentis. For students residing with a long-term guardian, it is the family's responsibility to obtain and present evidence of a Pupil's Pass from the Kenyan authorities.

3.43 Admission of Students with Special Learning Needs

To ensure optimum student-teacher ratios and service to a high standard, enrollment in Learning Support shall not normally exceed 15% of the enrollment at any grade level. Moderate support shall be provided for a managed number of students not exceeding 5% of the total school enrollment and not more than five moderate students per grade level. An intensive needs program shall also be offered for a limited number of students. The criteria that form the basis for identifying mild, moderate, and intensive learning needs shall be defined in the appropriate handbooks and admission documents.

Revised March 2019

3.44 Age for Entry and Placement

Students are eligible to enroll in lower elementary grades once they have reached the following ages by September 15 on year of entry: four years of age for Pre-Kindergarten; five years of age for Kindergarten; and six years of age for Grade 1. The school may consider placement in the Pre-Kindergarten program for younger students as guided by Policy 3.47 and available space.

For other grades ISK is not obligated to enroll a student who must be placed more than one year behind his/her respective peer group or who is at an age that would prevent attainment of a U.S. High School Diploma by the age of 20 years.

Revised March 2019

3.45 Admission Documents and Testing

Transfer students must present transcripts, test scores, and letters of assessment from their previous schools. Students with incomplete school records may be admitted for a provisional period. Acceptance and/or grade placement will be reviewed at the time the records arrive.

The school reserves the right to request additional assessments, the cost of which will be the applicant's responsibility. Failure to provide accurate information or failure to disclose a known learning need during the admissions process may result in a denial or subsequent withdrawal of enrollment.

Revised March 2019

3.46 Probationary Admission

Students may be admitted on a probationary basis when some or all of the admission criteria are not clearly met. Probation shall be defined individually for these students.

3.47 Other Placement Considerations

In addition to chronological age, other factors that may be taken into consideration in placement or enrollment decisions are social/emotional maturity, prior academic experience and placement test results.

3.5 PARENT/SCHOOL PARTNERSHIP

Parents shall be expected to participate as partners with the school in the education of their children by being involved in school events and activities, by collaborating with teachers, by maintaining good communication with school personnel, and by reinforcing and supporting the school's Mission and values.

3.51 Parent Responsibility in Case of Parent Absence

Parents or guardians are expected to be in residence in Nairobi to supervise their children's

education and well-being. If both parents, or the sole parent in the case of a single-parent household, or the guardian, are absent due to travel they must delegate parental responsibilities to another adult who shall be fully charged to act on the parent's behalf. This person must have the authority to make medical and other decisions related to the children's well-being. This delegation of authority and responsibility must be provided in writing by the parent or guardian to the respective Principal.

3.6 CONTINUED ENROLLMENT

A student would normally continue to be enrolled at ISK unless the school determines that the child's academic, personal, social and emotional needs can no longer be met, there is reasonable doubt about the child's prospect for success at ISK, or fees are outstanding.

3.61 Promotion and Retention

The promotion of a student is the decision of the Principal, in consultation with teachers and specialists. In most situations, notification to the parents of a student who may be retained should be made no later than end of the first semester.

3.62 Required withdrawal of students

ISK reserves the right to require a student to be withdrawn if:

- o the student's best interest and needs cannot be met effectively by the school's programs and services
- o the student's behavior is deemed to jeopardize the safety and/or learning of other students
- o the parent or student acts contrary to the expectations laid out in the Parent Student Handbooks.
- o educationally significant information is withheld from the school by the parents, or
- o school fees are not paid in accordance with the expectations communicated to parents each year.

Withdrawal decisions require a consensus recommendation of the Administrative Team, and are the final decision of the Director.

3.7 STUDENT DRESS

Expectations for student dress shall be respectful of the cultural diversity of the ISK community. Details of the dress code shall be documented in the appropriate Parent Student Handbooks.

3.8 CHILD PROTECTION

Child abuse is a violation of a child's human rights and is detrimental to every aspect of a child's development. The International School of Kenya and all its stakeholders have a responsibility to ensure the safety of each child involved in school activities and protect him/her from abuse. ISK's procedures for protecting and ensuring the safety of children shall be documented and followed consistently. In response to suspected abuse, the school shall take all reasonable, responsible and legal steps to protect the child and act as his/her advocate. ISK shall have a proactive plan for training all stakeholders and making the ISK community aware of various aspects of child protection.

Adopted November 2012; Revised February 2018

3.9 STUDENT CONDUCT

Expectations for student conduct shall be guided by values implicit in the ISK Mission, Vision and Educational Aims statements, which emphasize responsibility, respect for self and others,

compassion, critical and creative thinking, cooperation and perseverance. All adults in the ISK community shall share responsibility for developing and reinforcing these values.

Revised March 2019

3.91 Consequences for Inappropriate Conduct

Procedures for responding to students whose conduct violates the values implicit in the Mission, Vision and Educational Aims shall be transparent and documented in the respective Parent Student Handbooks. The objectives of those procedures shall be to:

- o Help the student learn from the incident
- o Prevent similar incidents from recurring
- o Ensure the safety and security of other students and community members.

Most conduct incidents requiring a response or intervention will be of a minor nature, with the teacher or Principal making decisions about appropriate consequences. In more serious incidents, the Principal has the authority to suspend students from school temporarily. For the most serious incidents, or repeat offences, the Director has the authority to expel a student from school.

Revised March 2019

3.92 Final Authority for Disciplinary Consequences

Any disciplinary consequences may be appealed to the next decision-making level. Final authority for disciplinary actions on student conduct rests with the Director. In the event of a challenge to a Director's final decision, the Board of Directors may be asked to confirm whether due process was followed.

Revised March 2019

3.93 Alcohol, Tobacco and Substance Abuse

To promote healthy students and a healthy school community, ISK endeavors to apply a wellness approach (where wellness is a deliberate effort toward a healthy body and mind) to the matter of student substance use. ISK believes that substance* use undermines the development of healthy students and interferes with learning. ISK also believes that an informed, engaged community is essential to keeping all students healthy and to fostering a productive learning environment. However, when necessary disciplinary action will be taken.

The primary objectives of this policy are to guide community education, ensure the safety of all students, and outline interventions – supportive and/or disciplinary - in cases of substance use. To these ends ISK will:

- o Develop and provide a systematic program to educate students and parents about the risks and consequences associated with substances use and abuse;
- o Maintain a strong parent-school partnership to address issues as they arise, at both the individual and community levels;
- o Encourage all members of the school community to be well informed, to keep students healthy, and to communicate issues about student substance use to school authorities, as necessary and appropriate;
- o Implement a support program for students who actively admit a substance problem to school personnel, or who remain at ISK following a disciplinary incident related to substances;
- o Maintain a learning environment (including off-campus school activities) that is free at all times of substances and related paraphernalia, using a range of educational and disciplinary tools, including searching of lockers, personal property, and drug

- testing when necessary;
- o Maintain and uphold school rules that provide serious sanctions for students consuming, possessing, distributing, or selling substances on campus or at any school-related activity. The most serious consequences such as expulsion and indefinite suspension could apply to any violation related to illegal substances and/or activities that endanger the wellness of others; and
- o Ensure the implementation and enforcement of this policy is clearly documented in parent-student handbooks.

**For the purpose of this policy, 'substances' will be defined as tobacco, alcohol, all drugs illegal in Kenya, inhalants, and misuse of prescription medication.*

All such organizations and activities shall have the approval of an ISK Principal, and shall be appropriately advised and supervised by an approved teacher, parent or adult.

Revised March 2019

3.12 EXCHANGE STUDENT PROGRAM

An exchange student is a student coming from outside Kenya that temporarily attends ISK and is hosted by a ISK family member, or, a current ISK student that temporarily attends a school outside Kenya.

There are two categories of exchanges for students, organizational and individual. Organizational student exchanges are through ISK-affiliated organizations, with guidelines determined by the organization (e.g., RoundSquare) involving students exempt from fees. Individually arranged student exchanges include exchanges requested by current ISK faculty and parents, with guidelines determined by ISK.

For organizational and individual exchanges hosted by ISK, potential host families must first complete an application for an exchange student along with a regular ISK enrollment application. The exchange student program will be administered on a first-come, first-served basis.

Once the application for an exchange student is approved, including meeting ISK admission criteria, the exchange student will be allowed to attend ISK only if there is space available in that grade level, ie. a full admission student should always be given preference for admission over an exchange at ISK in cases when space is limited. The cost to attend ISK as an individual exchange student will be 35% of normal tuition fees charged at a daily rate. Admission and capital levy fees will be waived. Normally, an exchange student may attend ISK or an ISK student may attend another school for a maximum of one semester and should be in Grade 6 or above, preferably high school, and not Grade 12. The school will develop exchange program guidelines in line with organizational student exchange program standards.

POLICY MANUAL ANNEX

Annex 1

NAIS Principles of Good Practice for Independent School Trustees

The following principles of good practice are set forth to provide a common perspective on the responsibilities of individual members of independent school boards.

1. A trustee actively supports and promotes the school's mission, vision, strategic goals, and policy positions.
2. A trustee is knowledgeable about the school's mission and goals, including its commitment to equity and justice, and represents them appropriately and accurately within the community.
3. A trustee stays fully informed about current operations and issues by attending meetings regularly, coming to meetings well prepared, and participating fully in all matters.
4. The board sets policy and focuses on long-range and strategic issues. An individual trustee does not become involved directly in specific management personnel, or curricular issues.
5. A trustee takes care to separate the interests of the school from the specific needs of a particular child or constituency.
6. A trustee accepts and supports board decisions. Once a decision has been made, the board speaks with one voice.
7. A trustee keeps all board deliberations confidential.
8. A trustee guards against conflict of interest, whether personal or business related.
9. A trustee has the responsibility to support the school and its head and to demonstrate that support within the community.
10. Authority is vested in the board as a whole. A trustee who learns of an issue of importance to the school has the obligation to bring it to the head of school, or to the board chair, and must refrain from responding to the situation individually.
11. A trustee contributes to the development program of the school, including strategic planning for development financial support, and active involvement in annual and capital giving.
12. Each trustee, not just the treasurer and finance committee, has fiduciary responsibility to the school for sound financial management.

Board Members Code of Conduct

Serving on the ISK Board of Directors requires a commitment by Board members to:

1. Embrace ISK Mission, Vision and Aims, keeping student learning as the priority.
2. Participate on the Board, in committees, and in annual training.
3. Communicate honestly, listen actively, respect all opinions, and remain positive.
4. Avoid raising individual matters/concerns, unless broad policy implications are involved.
5. Members will remain responsible to the institution as a whole, not a single agenda or constituency.
6. Follow ISK board guidelines for addressing concerns from parents, staff, or community members as outlined in the Board Operating Agreements (Annex 3).
7. Act as an advocate for the school and support its administration and staff.
8. Maintain confidentiality and keep discussions of board business within the context of board meetings or via email copied to all Board members.
9. Be disciplined about participation in meetings, as outlined in the Board Operating Agreements (Annex 3).
10. Take responsibility for ensuring board protocols are followed by colleagues and Chair.
11. Maintain focus on the legitimate roles of the board, which encompasses:
 - Revising and approving school policies
 - Developing the strategic plan
 - Planning and overseeing the implementation of the annual budget and the long-term financial plan in conjunction with the facilities master plan
 - Hiring, developing, motivating, evaluating, and retaining the Director
 - Delegating the implementation of school policies and school management to the Director and the instructional and support staff
12. Maintain a mutually trusting, supportive relationship with other board members and the Director.
13. Participate actively in board discussions, then support the final decision, even if you voted against the decision.
14. Refrain from "surprising" or embarrassing another board member or the Director, regardless of the forum.

Board Operating Agreements

3.1 Communication Between Board, Stakeholders & Director/Admin

While the Board and Director/Admin strive to promote good communication among all school constituencies, Board members are sometimes approached by parents, staff, and students with questions or concerns about events at the school. The Board members' role is to be responsive to stakeholders but not become involved in solving operational concerns or interpreting policy. The Board and Director/Admin agree upon the following approaches:

- (a) Parents and other stakeholders may seek out Board members to help them address concerns because they do not fully understand the Board's role. These interactions are an opportunity to educate stakeholders on the Board's role.
- (b) In addition, parents and other stakeholders may not know the appropriate channel for addressing their concerns. Therefore, Board members will direct parents and other stakeholders to the appropriate person, given their concern. This is the person closest to the issue and with the authority to address the issue. For classroom issues, this will be the teacher.
- (c) If an issue comes up repeatedly, or is considered "mission critical," the Board member will take the additional step of alerting the Board Chair and Director because a more systemic solution may be needed. If in doubt of whether a topic reaches this threshold, Board member will go ahead and share the information with the Board Chair. When information is shared with the Director, it will be helpful to provide concrete data (number of people expressing concern) as opposed to generalizations and reactions.
- (d) The Director and Admin will work proactively to ensure the Board has the information needed to respond when events will likely generate questions.
- (e) When the Board needs to communicate strategic decisions, the Board will agree upon how the decision will be communicated to the stakeholders.
- (f) All stakeholders are welcome to attend regular Board meetings. Occasionally, an issue raised by a parent or student may be added to the agenda for discussion at board meetings provided it is of a policy nature and has been submitted through the Board Chair or Director as per procedure.

3.2 Board and Committee Meeting Norms and Related Work

Meeting time is precious. The Board member's interest is to conduct its work both effectively and efficiently while ensuring continuity in informed strategic decision-making. The following approaches were agreed upon by the full Board.

3.2.1 Meeting Norms

- (a) The Board (or Committee) Chair and the Director will prepare the meeting agenda. Once a Board or Committee meeting agenda has been finalized, approximately one week before the meeting, new items will usually not be added to that agenda unless they are of a critical/emergency nature. When a new topic surfaces during the discussion of another topic, the new topic will be scheduled for a later meeting so that appropriate information can be gathered and the Board or Committee is fully prepared for that topic of conversation.
- (b) To help ensure relevant information has been referenced so that Board or Committee members can prepare adequately for meetings, documents and/or policy will be referenced

in relationship to agenda items. As part of the agenda setting, time frames for items may be suggested as well as the objective of the agenda item. The Board may opt to assign someone as timekeeper so that the suggested time frames are used.

- (c) Board members are expected to prepare for meetings of the full Board by reading relevant material and forwarding important questions to committees. Board members who have not participated in the committee are expected to review background material and if they have questions that would be essential to address before taking the vote on a recommendation, forward those questions to the committee chair several days prior to the scheduled Board meeting. This will allow committee members to be prepared to address those questions during the full Board meeting.
- (d) During the Board meeting, an amount of time may be allocated to discussion of an agenda item before a vote is taken on a recommendation. All Board members agree to hold discussions in an open, mutually supportive and collegial manner while monitoring discussions for extended conversations that do not add value or repeat points that have already been made. After appropriate discussion where all have had the opportunity to voice their opinion, the Chair will call for a vote. The board will strive to make decisions by consensus; nevertheless, all decisions will be taken by a vote of members present. Once decisions are made, all board members will support the decision. Minutes will be kept of Board and Committee meetings.
- (e) Executive sessions, where sensitive topics are considered, are usually scheduled after a regular board meeting and are closed to the public. Discussions in executive sessions are strictly confidential. The board secretary takes meeting minutes for executive sessions. The executive session agenda items will be summarized to preserve confidentiality.
- (f) Under of the direction of the Board Chair, if there are exceptional or emergency circumstances that require discussions between/among Board members about significant Board issues to occur outside of meetings, such discussions may occur via email. Any such discussions should be copied to all members for their information in order to preserve trust and transparency. Decisions should not be taken by email unless, in the reasonable judgment of the Board Chair, the exceptional or emergency circumstances so require. Decisions taken by email should be formally taken at the next board meeting for recording in the board record.

3.2.2 Committee Work

- (a) Committee work is guided by each committee's Board approved parameters. Committee parameters are revised annually and include regular committee work and related approved strategic plan tasks.
- (b) The committee structure is designed to explore topics and develop recommendations to the full Board while working in smaller and more specialized teams. To maximize the effectiveness of committee work, meeting dates and locations for committee work will be shared with all Board members. Those interested in the work of a committee are welcome to join a committee meeting and participate in the committee work.
- (c) As work moves from committee to the full Board, reports and background material will be sent directly to the full Board as part of the Board packet.
- (d) When committee recommendations are on the Board agenda, the committee chair usually presents the recommendation. Committee members are not bound by the committee recommendations to vote in favor.
- (e) It is understood, that on occasion, new information or issues may surface that cause the Board to have a committee review its recommendation in light of new information and bring the recommendation back to the Board subsequently.

3.3 Board Chair and Director/Chair Relationship

In addition to the role of the Board Chair, the Board recognizes the importance of the relationship between the Board Chair and the Director. The Board and Director agree upon the following approaches:

- (a) The Board Chair serves as the leader of the Board and spokesperson for the board. At the same time the Chair is the focal point for board members' feedback to the Director and administrative team.
- (b) The Board Chair serves as a mentor/partner to the Director, providing advice and counsel to the Director on behalf of the Board.
- (c) The Director and the Board Chair work together to organize the annual training of Board members.
- (d) The Board Chair will conduct meetings according to the agenda and established meeting norms including Robert's Rules of Order. The Board Chair will help board members self monitor their behavior and adherence to roles as needed.

ISK Board of Directors
Annual Conflict of Interest Disclosure and Agreement

Board members are appointed or elected to serve ISK and all its constituencies. The men and women who accept this position are expected to carry out their duties in a manner that inspires and ensures the confidence of the school and the broader community.

Board members shall exercise the utmost good faith in all transactions touching upon their duties to the school and its property. They shall not use their positions as Board members, or knowledge gained there from, so that a conflict might arise between the school's interest and that of any individual Board member.

A conflict of interest arises in any situation in which a Board member (and/or his/her immediate family) is involved in an activity that could adversely affect his/her objective judgment with respect to the business of the school, or otherwise diminish the interest of the school.

Potential conflicts of interest related to fee decisions:

This information will not require the Board member to recuse him/herself from fee deliberations, but it is a reminder that each board member has an implicit conflict in such decisions if any fees are paid by the family.

- _____ My child(ren)'s fees are paid entirely by my family.
- _____ My child(ren)'s fees are partly paid by an organization, and partly by my family.

(Please provide details of the breakdown and the name of the organization:

_____)

- _____ My child(ren)'s fees are paid in full by an organization: (_____)

Other potential conflicts of interest:

- **Businesses** in which I, or any family members, have an interest or in which I/they work or serve:

- **Non-profit organizations** with which I, or any family members, are involved:

- **Government agencies** with which I, or any family members, interact in the course of our work:

I, _____, have read, understood and agree to abide by the above conflict of interest statements. I have fully disclosed any potential conflicts of interest, above, that might affect the objectivity of my judgment, perceived or real, in Board deliberations for the _____ school year.* During the school year I agree to bring to the Board's attention any potential conflicts of interest that might be relevant to a particular deliberation, and will normally recuse myself from that discussion and decision.

Guidelines for Decision-Making in Extraordinary Circumstances

When the board is operating under extraordinary circumstances, which involve time pressure, a controversial or sensitive situation such as an emergency, security or other issue, the following guidelines will apply. These guidelines do not supersede the Board Policy related to emergency closure of the school.

- (a) If a decision has sensitive implications, e.g. school closure for security reasons, all meetings/briefings with the U.S. Embassy and/or Canadian High Commission should be attended by at least one other board member not affiliated with that embassy. The preferred option is to have the Board Chair and Chair of the Facilities Committee join the Director at such meetings. In the event that both Chairs are affiliated with the sponsoring mission(s), the Board Chair will designate one other non-affiliated board member to attend the meeting.
- (b) The issue should be brought to the Board in the form of an objective written briefing paper, which outlines the issue(s), provides the key facts and presents the possible decision alternatives.
- (c) The board should meet in two separate sessions (even if only a few hours apart) when deliberating over “high stakes” decision: a quorum of at least 6 members should be present at each of these sessions. The justification for having two separate sessions is to allow board members time to digest the available information and to properly think through the decision alternatives before a decision is made.
- (d) The briefing paper should be presented to the board (by the sponsor) at the first session with time made available for questions and discussion for clarification, not decision-making. Decision criteria (weighted and prioritized if appropriate) should be developed and agreed at this first session.
- (e) The second sessions should be convened later that day or the next. The purpose of this session is to make the decision and to develop an appropriate communication piece, e.g. position paper/Q & A, for use in communicating the decision to the school community. Every Board member present (including the Director) should be given ample opportunity to speak; comments should be pertinent to the agreed decision criteria. Once adequate time has been given for comment, the decision should be put to the vote; votes must be properly recorded.
- (f) Once the vote is taken, the Board must take the time to prepare and agree on a communication strategy/plan, along with a written position paper/Q & A.
- (g) The decision and its implications will be communicated as soon as possible to the school community.

Appeals to the Board of Directors (Procedure and Timeline)

Upon receipt of an appeal, (verbally or in writing)...

Chair (within 24 hours) will:

- o Ask complainant whether they have already gone through Principal and Director.
- o Clarify that an appeal to the Board would only be considered in relation to due process not being followed.
- o Instruct complainant to put the request in writing, including what aspects of process were not followed and what outcome they are seeking
- o Notifies the Director, the BoD and the BoG Chair

Upon receipt of a formal written request for appeal...

- If the BoD considers that some aspect of process was flawed, advise the Director to re-visit or re-do some / all of the process. This re-visit process may or may not lead to a different outcome. The Director should keep the Board informed of actions and possible outcomes, prior to communication with parents. (In the event of gross negligence regarding process, the BoD would need to consider next steps, including more active engagement in the process while possible disciplinary consequences were considered).

Chair (within 24 hours):
